

(Sri D. Devaraja Urs)

say that priority to be given to these people. But, to make a legislation, I am advised by the Law Department that under the Constitution, it will not be possible for us. The Government is still considering this question. Though I am personally willing to make legislation, I have to be advised legally if Government as such could do so. The Government of India in the year 1969 thought of a legislation and the draft has been sent to the State Government, and since then, though the Government of India's idea was to make the legislation for the whole of India, I do not know what circumstances it is being delayed. This matter may have to be taken up with the Government of India again.

SRI K. T. RATHOD —As the Hon. Member is well aware, the fisheries resources for development of Hyderabad Karnataka area are rather less. Even then the Government have taken adequate care to develop the programme on the following lines:

The inland fisheries development work in the Hyderabad Karnataka area has been as follows :-

(Sri K. T. Rathod)

Applied Nutrition programme has been taken up in 16 Community Development Blocks in Hyderabad Karnataka area. The scheme for intensive development of fisheries in Community Development Blocks has been taken up in 1 Block.

A fish seed production centre has been set up in Munirabad in Raichur District and this farm has been considerably improved and expanded recently. Taluk level nurseries for rearing and storage (for distribution) of fish seed have been constructed in 5 taluks. A fish seed farm is being developed at Bosga in Gulbarga District. Fish Farms are being established at Rajolibanda, Kannakanala and Hattikoni.

A total quantity of 43.37 lakhs of fish seed has been supplied to Hyderabad Karnataka area for stocking of inland waters during the last three years. Intensive stocking of waters has been taken up under the Ayacut Development programme.

Development of Fisheries in reservoirs at Hattikone and Chandrampalli projects in Gulbarga District have been taken up.

A scheme of rehabilitation of fishermen has been taken up at Gulbarga. The scheme provides facilities of housing, water supply and other betterment amenities. A sum of Rs 60,000 has been sanctioned by the Government during 1972-73 under this scheme for 20 families of fishermen of Gulbarga District. During 1972-73, a sum of Rs. 12,000 has been spent under the scheme and the scheme will be completed during 1973-74.

Five co-operative societies of fishermen have been organised in the area for the benefit of the fishermen. Action is being taken to organise a district federation of co-operatives at Gulbarga.

SRI N. G. HALAPPA.—(Government has spent so much money. Have they been able to make any profit; if so, what is the profit ?

SRI K. T. RATHOD.—Under the programme we have taken up, it is not that we are expected to make any profit. We have to expand the fisheries activities and this aspect has been taken care of.
